

Plasma Manuel Gas Consoles

PV

Plasmagas supply unit - for PA-S25 W, PA-S45 W and FineFocus 800
For control and mixing of plasma gases
- PA-S25 W and PA-S45 W: for oxygen
- FineFocus 800:
argon/hydrogen/nitrogen
Mounted on plasma ignition unit (PZ)

PM

Plasmagas mixing unit
For mixing of plasma gases
argon/hydrogen/nitrogen for PA-S25 W,
PA-S45 W and FineFocus 450
Mounted on plasma ignition unit (PZ)

Plasmagaskonsolen

PGE1-45

Plasmagas connection unit –
for PA-S45 W
for manual dosage and mixing of gases
for cutting with plasma gas air; when
operating with PZ the PGE1-45 has to
be mounted on bridge of cutting table

PGE2-45

Plasmagas connection unit –
for PA-S45 W
for manual dosage and mixing of gases
for cutting with plasma gas Ar/H₂/N₂;
when operating with PZ the PGE2-45
has to be mounted on bridge of cutting
table

Plasmagaskonsolen

PGE 1

Plasmagas connection unit

For manual dosage and mixing of gases for cutting with plasma gas air or oxygen and for dosage of swirl gas; when operating with PZ the PGE1 has to be mounted on bridge of cutting table

PGE 2

Plasmagas connection unit

For manual dosage and mixing of gases for cutting with plasma gases argon/hydrogen/ nitrogen; when operating with PZ the PGE 2 has to be mounted on bridge of cutting table

Plasmagaskonsolen

PGE 3-600 or PGE-600

Plasmagas connection unit –
only for FineFocus 600
For manual dosage and mixing of
gases for cutting with plasma gas air or
oxygen and for dosage of swirl gas

PGE 3-800 or PGE 3-800

Plasmagas connection unit –
only for FineFocus 800
For manual dosage and mixing of
gases for cutting with plasma gas air or
oxygen and for dosage of swirl gas;
when operating with PZ the PGE3-800
has to be mounted on bridge of cutting
table

Plasmagaskonsolen

PGE3-HM

Plasmagas connection unit –
only for HiFocus 80i/130/160i/161i
For manual dosage and mixing of
gases for cutting with plasma gas air or
oxygen and for dosage of swirl gas;
when operating with PZ the PGE3-HM
has to be mounted on bridge of cutting
table

PGE-H

Plasmagas connection unit –
only for HiFocus 130/160/161i
For manual dosage and mixing of all
plasma and swirl gases for cutting with
plasma gas air or oxygen and for
dosage of swirl gas; when operating
with PZ the PGE-H has to be mounted
on bridge of cutting table
